4:00 Workshop Closes

SEPTEMBER 28, 2022
11 AM – 4 PM CT

Workshop Description:

Join us for this virtual workshop and learn how you can help safeguard youth who work on farms and ranches. Sessions will focus on the benefits and risks to youth working in agriculture, illness and injury prevention strategies, youth mental health, and parent/supervisor information and training. Use what you learn to develop and enhance childhood agricultural safety strategies for your organization.

Workshop Features:

- Virtual event – join from anywhere
- Sessions facilitated by leading experts in the field
- Hands-on activities
- Small group discussions
- Access to free resources and safety tools

Intended Audience:

This workshop is ideal for farm parents, supervisors, agribusiness, farm organizations, insurance professionals, bankers and lenders, healthcare providers, Extension, FFA Advisors, public health officials, and media.
