

# 2019 Child Agricultural Injury Prevention Workshop

## Preliminary Agenda

### Hershey, PA

**Purpose:** Increase knowledge and awareness of agricultural child injuries and extend the reach and dissemination of childhood agricultural injury prevention (CAIP) strategies and resources.

**Desired Outcome:** Participants will increase their knowledge of childhood agricultural safety strategies and resources. They will use this information and resources to develop and enhance their organization's child agricultural injury prevention efforts.

#### **Learning Objectives**

In relation to child agricultural injury prevention, participants will be able to

- Describe the burden of injuries and fatalities
- Identify the benefits of participating in safety efforts for their organization
- Identify resources and organizations that can work together to promote farm safety
- Develop a network of peers committed to injury prevention to serve as potential partners/resources
- Recognize effective policies and strategies their organizations can implement
- Develop a plan for their organization to assist with promotion/dissemination of child safety resources
